August 1, 2014

Dear Patient:

After forty years practicing medicine, I have decided to close my office effective on October 17, 2014. If you wish to have a copy of your medical records of your visits to me, please call my office at 773-248-4427 or email me at [wsmarkeymd@um.att.com](mailto:wsmarkeymd@um.att.com) with your request. There will be a fee for processing and mailing your records.

I have asked Dr. Andrew Albert and Dr. Michael Flicker, both excellent gastroenterologists, at Advocate Illinois Masonic Medical Center to see my former patients if they need services of a gastroenterologist. They are both kind and knowledgeable clinicians. Those patients whom I have seen at Rush University Medical Center should call the office of University Gastroenterology and they will be assigned a physician through that office. Of course, you may ask your primary care doctor for a new referral physician.

I have enjoyed being your doctor and will miss being involved in your medical care, whether it was for a short time or for many years. I would be more than happy to talk with you about your medical needs and give you advice on how best to obtain good medical care during these times of change.

*William Markey, M.D.*
